# CHICO & FRANCISCO

Parte 1

Um dia, Maicon Terno, investiu em uma empresa que se chama Savaiana, era uma empresa de boneco e animatrônicos.

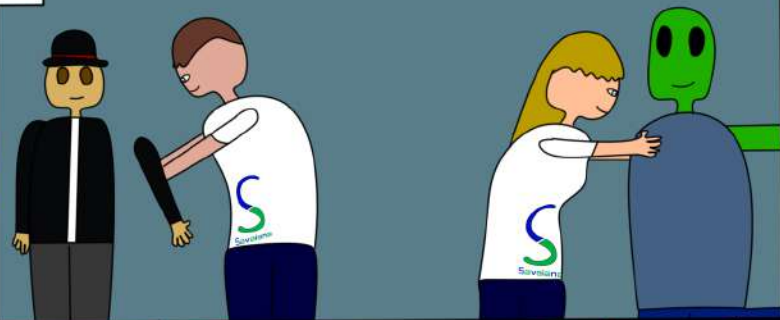

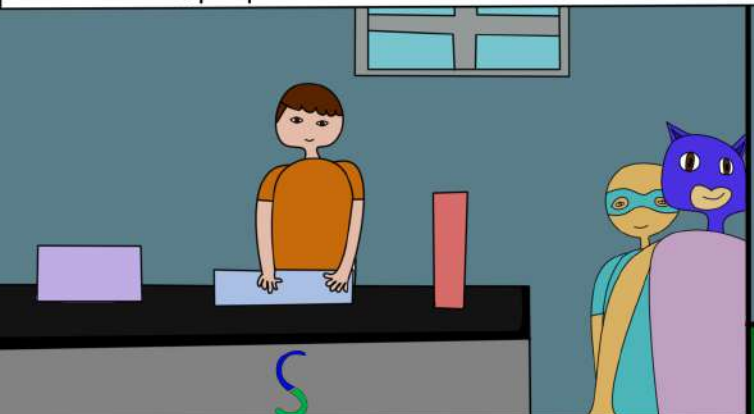

Sempre quando tinha uma paléstra de cinema, biblioteca ou algo desse tipo, essa empresa é a responsável de montar os bonecos e animatrônicos.

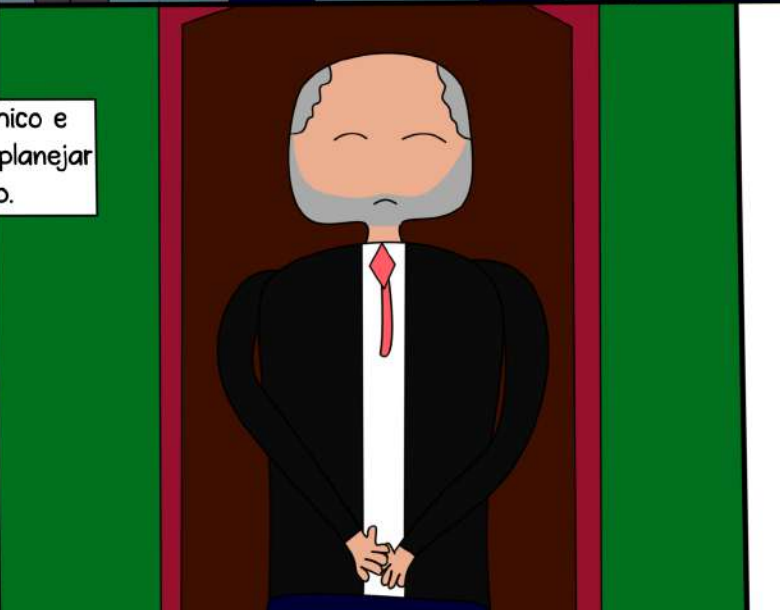

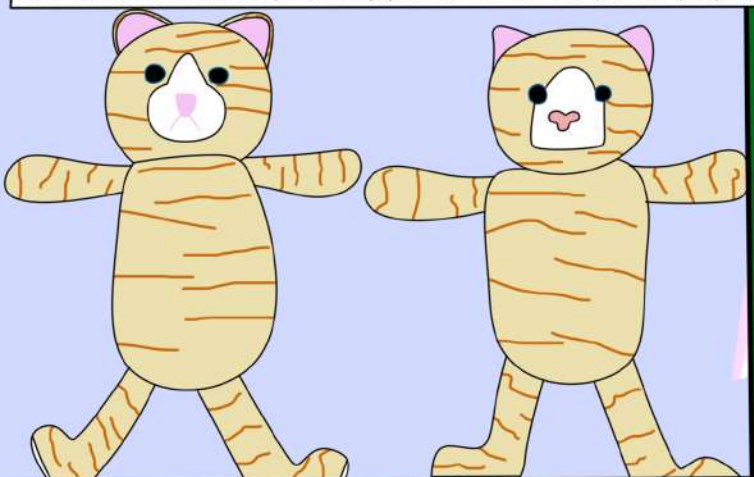

De repente, eles estavam de saco cheio de montar boneco e animatrônico para os outros, de personagens que já existem, e daí eles resolveram montar a própria franquia de bonecos.

Várias empresas já chamou a Savaiana para montar personagens de um filme que vai ser estreiado, ou então produtoras de desenho animado, parques de diversão entre outros.

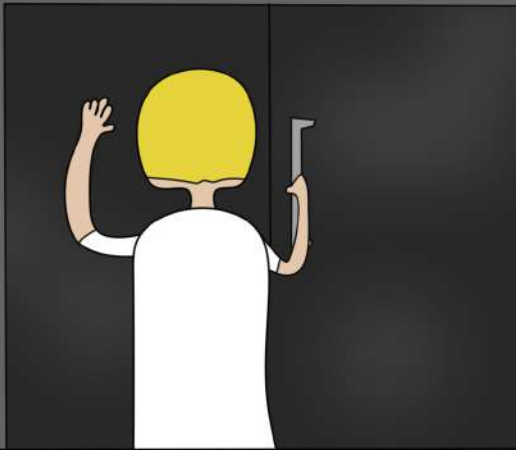

daí eles resolveram criar 2 gatos irmãos, que se chamavam Chico e Francisco. Mas para começar esse projeto, eles começaram a planejar com dois bonecos de pelúcia gigante, como "croqui" do projeto.

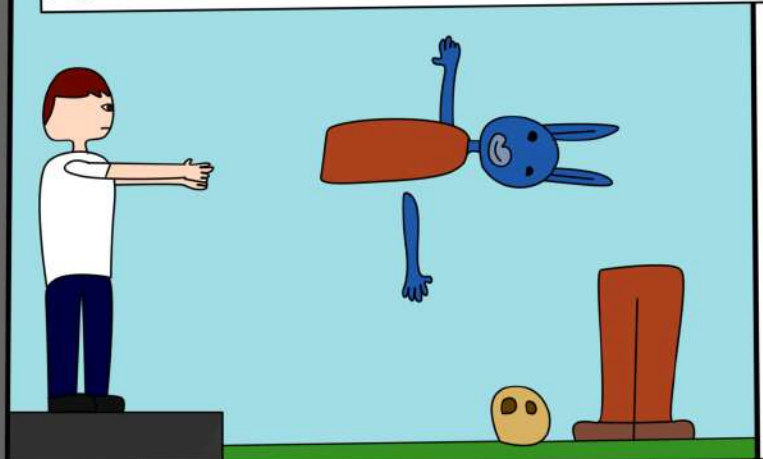

Mas infelizmente o Maicon Terno, faleceu de câncer, e ele não deixou nenhuma herança para empresa, ou ele não disse nada para empresa sobre o que eles iriam planejar.

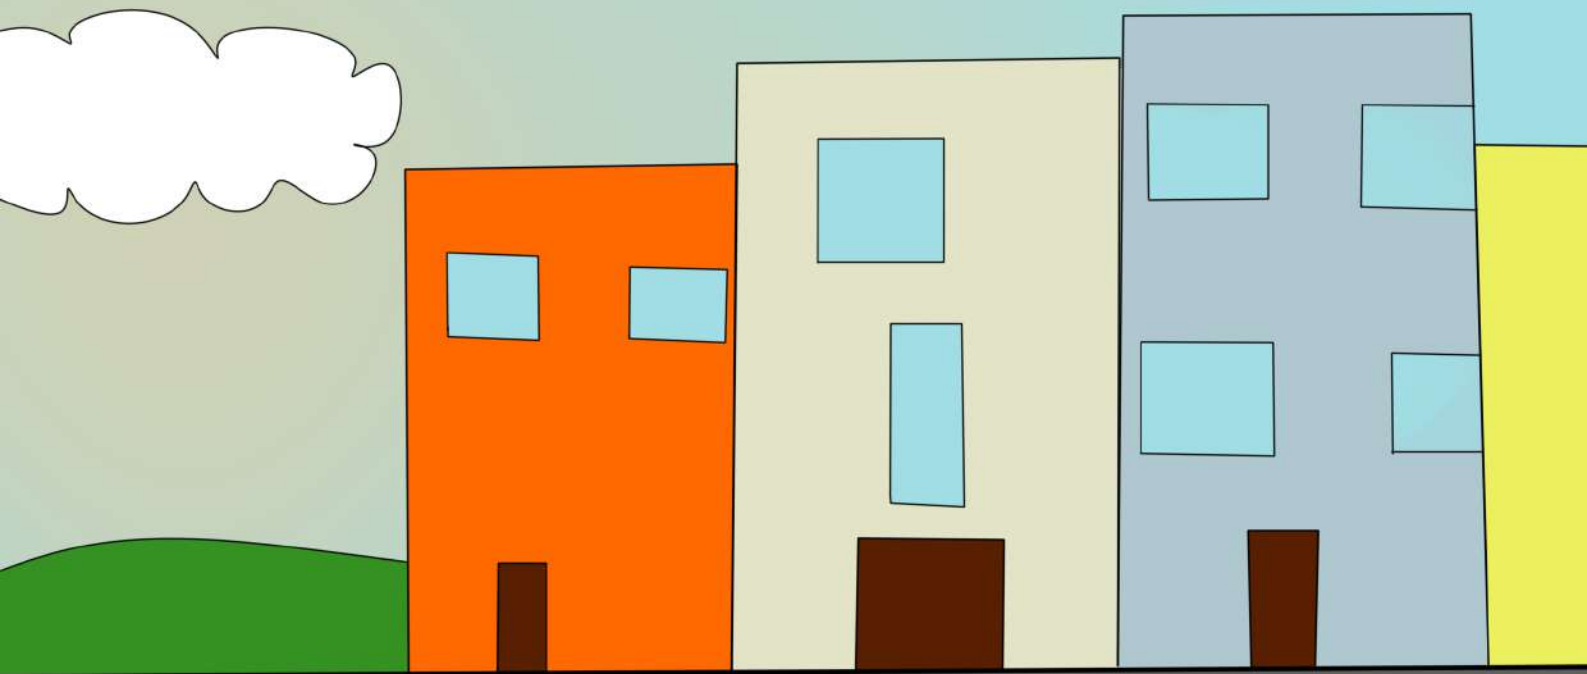

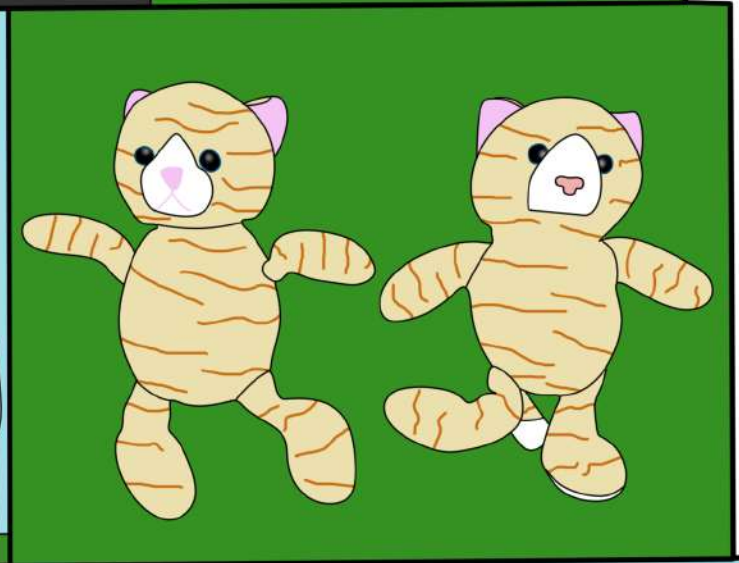

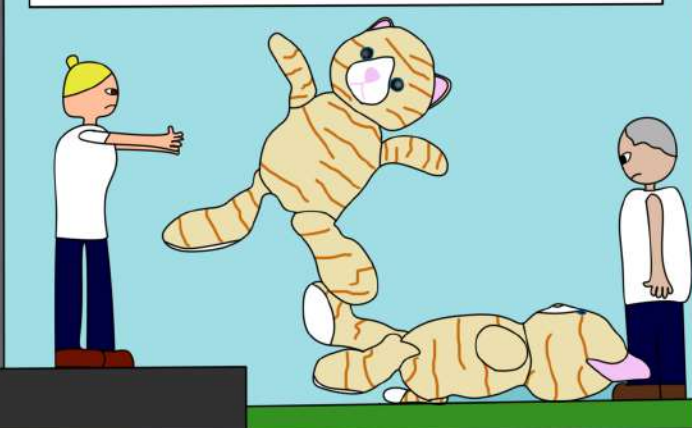

Eles fecharam a empresa.

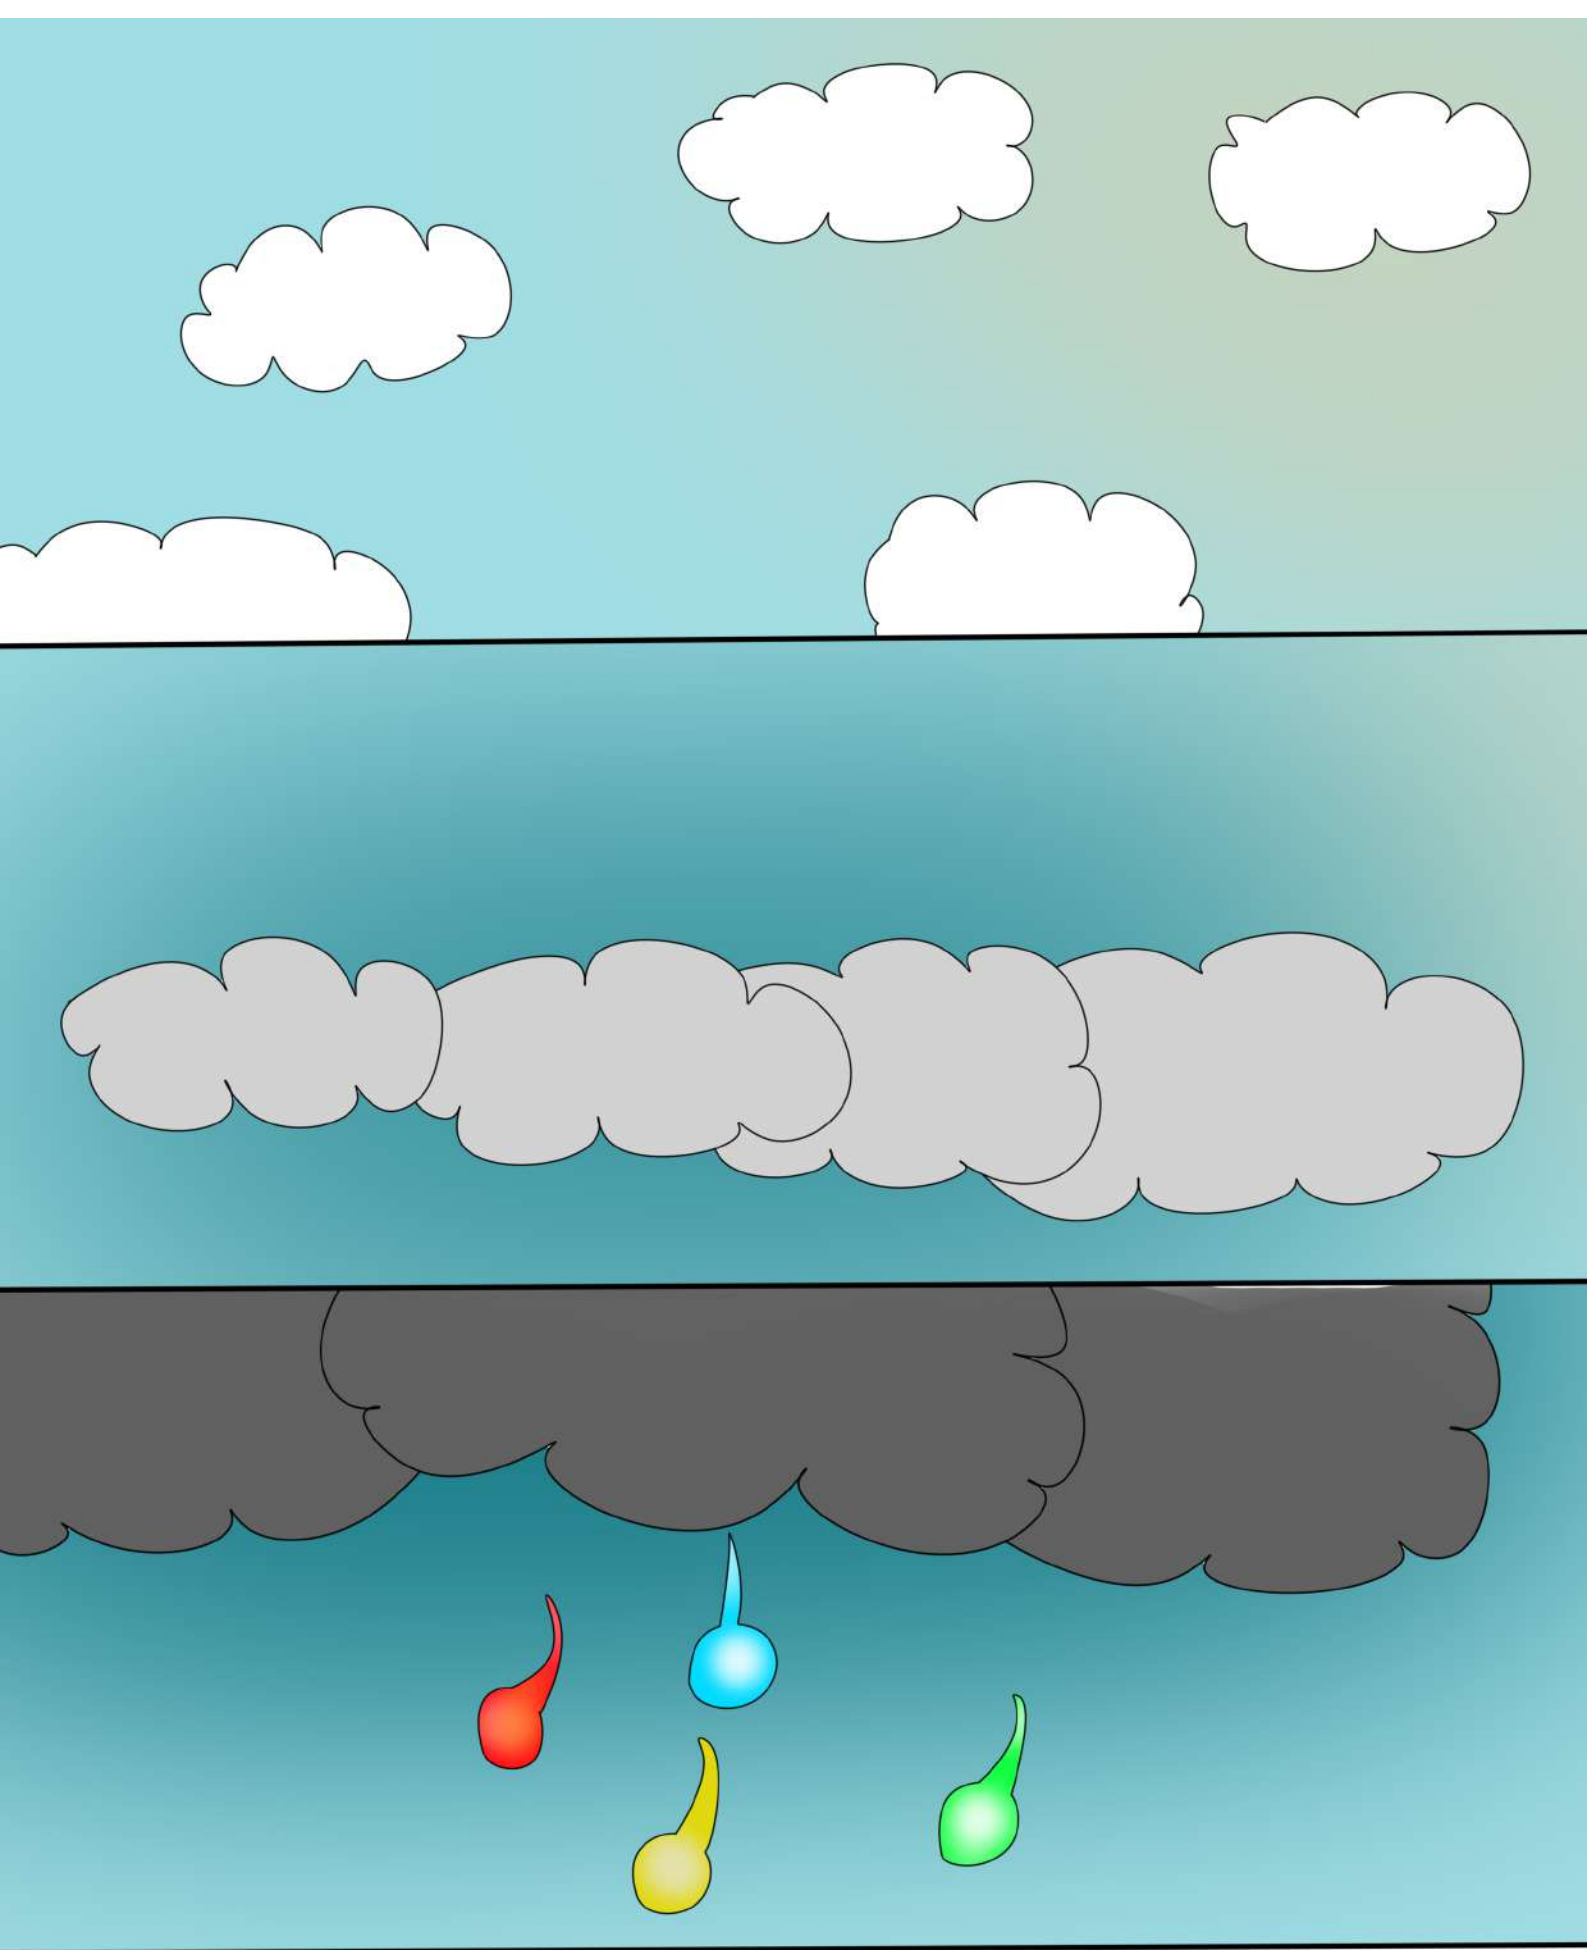

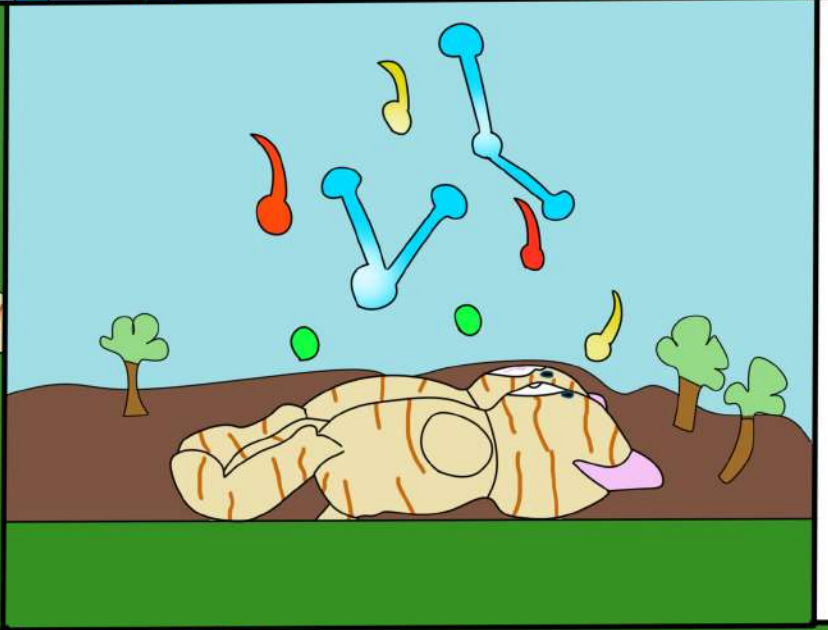

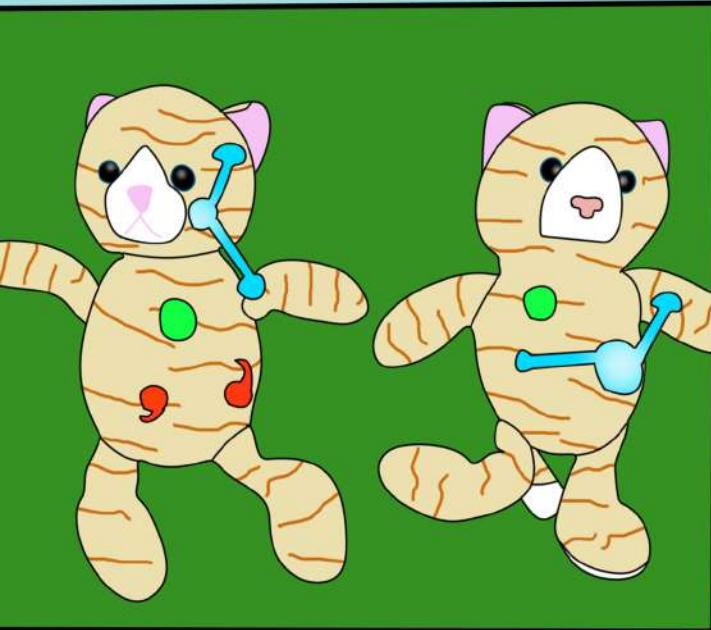

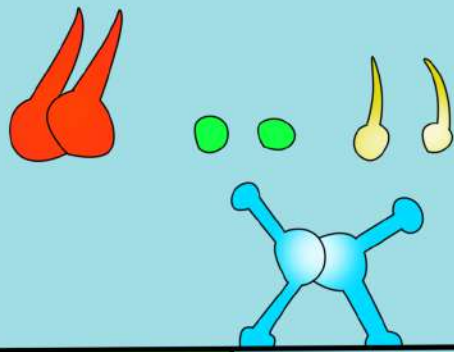

Desfazeram dos bonecos e animatrônicos que eles iriam fazer para as palestras, e jogaram fora os bonecos que era de projeto de Maicon.

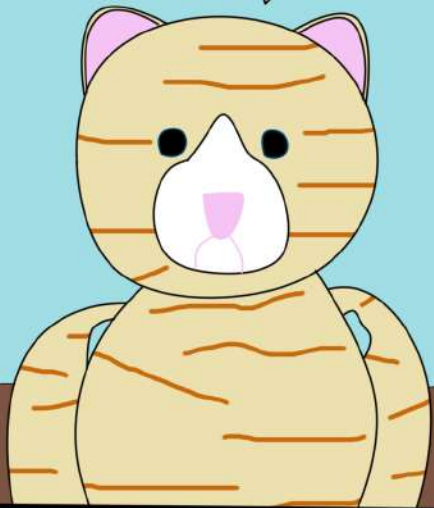

O Chico e Francisco, ja que não tinha espaço na lixeira para os 2, eles jogaram eles em qualquer canto.

Pois nunca seremos esquecidos, por esses policiais que dedurarem para o governo e as emissoras de TV.
